- Khmer (Native)
- English (Upper-intermediate)

ABOUT ME

I am a motivated and adaptable software development student with a strong interest in software engineering and technology. Through academic and personal projects, I have gained hands-on experience in programming, web and mobile application development, databases, and game development. I enjoy solving technical problems, learning new technologies, and working collaboratively with others. I am eager to apply my skills in a professional environment, gain practical experience, and continue developing as a software professional.
